## CONFEREES AGREE

### Struggle Over Tariff About to Come to End.

### AGREEMENT WAS SUDDEN

**Report Laid Before President Taft and Question is Whether It Suits Him—Duty of $1.40 on Rough Lumber.**

(By Wire to The Morning Star.)

Washington, July 28.—After working for nearly three weeks at what proved to be one of the longest and most anxious tasks ever experienced in tariff building, the majority members of the conference committee of the Payne-Aldrich bill brought their labors to a sudden close at 6 o'clock tonight.

Without a moment's delay, the Senate and House leaders whose names are carried by the bill, started away by automobile with the intention of laying their report before President Taft who had gone to Fort Myer to see what had been intended to be the last aeroplane official flight of the Wright brothers.

All day long the conferees had struggled with the question of bringing down the House rates on gloves and the Senate rates on lumber, figures they felt would meet with executive approval. In this effort they failed.

Lumber was made dutiable at rates only a little below those named by the Senate bill, and there was a very slight shading from the House rates on gloves of good quality. Although it was not admitted by the conferees, the general impression drawn from the hurried trip to Fort Myer was that Messrs. Aldrich and Payne had been authorized by their colleagues to incorporate in the conference report such figures as could be agreed upon with the President insofar as they came within range of what the leaders believe will be acceptable in the House and Senate.

Returning from the conference at Fort Myer, Messrs. Aldrich and Payne seemed to be entirely satisfied with the outcome of their mission, although neither would discuss the conclusion reached.

It was announced officially that the Democratic members of the conference committee would be called in session tomorrow.

In view of President Taft's utterances, Senate and House leaders were predicting tonight that the conference rates on gloves and lumber would not prove satisfactory to him.

It required a roll to fix the rates on lumber which are as follows: Lumber, rough $1.40 a thousand feet. The House rate $1, and the Senate $1.50. The Senate differentials were adopted.

Gloves were made dutiable at rates considerably in advance of the duties by the Senate bill, which for the main part were the same as the Dingley rates.

The session today was the busiest since the bill has been in conference. Dozens of Senators sought audiences and were received by the Senate members of the committee and there called also many members of the House, including the committee representing the anti-free-raw-material insurgents. In the corridors swarmed agents of special interests, who seemed to realize that the crucial period of the conference had arrived.

## THE VIRGINIA REPUBLICANS

**Convention First Since Taft Inauguration—Slemp Probable Nominee For Governor—Favors Local Option—Ticket Today.**

(By Wire to the Morning Star.)

Newport News, Va., July 28.—The first convention since Taft's inauguration the gathering here has been regarded in advance as a sort of thermometer of Republican sentiment toward the new incumbent of the White House. As though measured by fahrenheit—it was about 90 degrees in the convention hall today—the mercury expanded with each mention of the President's name. Roosevelt also came in for his share of the mention and corresponding acclaim.

At a late hour tonight it was uncertain whether the nominee for Governor would be Bascom Slemp, the State chairman of the Ninth district, or William P. Kent, of Wythe. When Mr. Slemp's name was mentioned at tonight's session by Assistant Secretary McHarg as the strongest man the party could put up for the office it was greeted with slavos of applause and afterwards the leaders stated that Mr. Slemp could have the nomination if he wanted it. Mr. Slemp said, however, that he did not care for the nomination but strong efforts still are being made to induce him to accept it.

If Mr. Slemp declines the honor, William P. Kent, of Wythe, it is stated, unquestionably will be the nominee with George Nelms Wise, of Newport News, as candidate for Lieutenant Governor. A. P. Gillespie, of Tazewell, had been agreed upon for the Governorship but a telegram came from him later this evening saying that owing to the state of his health he could not possibly accept.

In spite of efforts of the delegations from Southwest Virginia to have the party declare for Statewide prohibition in the State, indications tonight were that the convention would declare in favor of local option with the unit rule prevailing in local option counties.

State Chairman Slemp opened the convention this morning with the usual keynote speech, during the course of which he told the delegates that he thought the party had the best chance for victory during the approaching gubernatorial campaign that it ever had. Mr. Slemp said that the Republican party had fulfilled its tariff promises and that while the bill perhaps not satisfactory to everybody, was about the best that could have been framed.

"During the framing of the tariff law" constinued Mr. Slemp, "we saw Democratic Virginia asking favors of a Republican Congress, we heard our senior Senator (Mr. Daniel) pronounce himself a protectionist and we have seen his party unanimously endorse his candidacy for another term.

"The Democratic orators used to throw rocks at us because we were robbing the people by our iniquitous tariff provisions. Now they say they must share in the plunder."

D. Lawrence Groner, of Norfolk, was chosen temporary chairman at the conclusion of the morning session and after the various committees had been appointed, the delegates, accompanied by their wives went on a boat ride to the Virginia capes, aboard the steamer Brandon as the guests of the Newport News Chamber of Commerce.

Calling Secretary Nagel "the greatest man in Taft's cabinet," Assistant Secretary of Commerce and Labor MaNarg, apologized for absence of the former who was due to speak, stating that Mr. Nagel's presence had been required at the White House. He was the first speaker at the night session.

"There is too much of the solid South—too much of the solid South—" deprecated Mr. McHarg. He said no man ought to be a Republican or a Democrat because his father was one but because he believed the principles of one party or the other would provide a better living for him and make him happier.

Mr. McHarg spoke at length upon the necessity to the South of turning the tide of immigration in that direction and in that connection said that the desirable European immigrant was going Westward rather than Southward because he was treated better socially in the West. He expressed his gratification in finding throughout the South that the policies of protection which had made the nation great were being backed up and praised the good roads movements and the work being done by the South Commercial Congress as tending toward the development of that section's great natural resources.

"The struggle for protection will soon come from the South to aid in the upbuilding of her infant industries," said Representative McKinley. He figured that the great industries of the North were reaching that point in their growth where they no longer needed it. Mr. McKinley sounded the warning of the "yellow peril," as an industrial menace. He explained in detail how the two great Mongolian nations of the Orient were beginning to compete with us even in our own country. He submitted this illustration as an argument for a high protective tariff. Mr. McKinley also urged the upbuilding of the merchant marine and said that unless some steps were taken in this direction soon, the Panama canal would merely afford a commercial gateway for the ships of other nations: He said there was need of ship "encouragement" legislation—that what the Japanese call it, he said—because the word subsidy seems to be objectionable and that if the Democratic Congressmen would not vote for it, the people should send to Congress Republicans who would."

Mr. McKinley's advocacy of the merchant marine struck a popular chord here—this being the home of one of the greatest shipbuilding plants in the country—and even the Democrats present as spectators applauded the sentiment and pressed forward afterward to shake his hand.

The final session of the convention will be held tomorrow when nominations will be made and a platform adopted.

## HARRY THAW'S FATE

### Slayer of Stanford White Was on Stand Yesterday.

### STOOD TEST FOR SIX HOURS

**District Attorney Jerome Delved Into Thaw's Life History—Several Times Harry Got Best of Lawyer—Shielded Wife.**

(By Wire to the Morning Star.)

White Plains, N. Y., July 28.—Harry K. Thaw's fate lay in his own hands today. For six hours he occupied the witness stand while District Attorney Jerome, the man who twice tried to send him to prison, and who once already has thwarted an effort to release him from a criminal insane asylum, delved into his life history. Thaw emerged creditably from the ordeal. Whatever Jerome and his alienists may make of the examination, to the eye and ear of the laymen Stanford White's slayer showed no signs of insanity on the stand today.

Tonight Thaw, the members of his family and his retinue of attorneys and experts were unanimous in their opinion that he has proved his fitness to be at large. His friends believe that if he acquits himself in the future as well as today, Justice Mills will have no choice but to grant his application for release from Matteawan.

But Thaw's ordeal is not over. He will remain on the witness stand tomorrow and perhaps a day longer. The State's alienists believe that if he is insane he will be more likely to betray himself toward the end under Mr. Jerome's continued hammering.

Neither Thaw nor the New York District Attorney displayed anything but the utmost good nature today. Frequently the dialogue resembled the chat of friends at an afternoon tea. Sometimes Thaw thought he had scored a point and smiled with the keenest enjoyment. The smile was always reflected on the face of his white-haired mother who sat in court throughout the day with the other members of the Thaw family.

Jerome today strove to establish Thaw's insanity mainly on his alleged hallucination regarding Stanford White's treatment of young girls. Time and again he asked the witness' own opinion of his mental station. Thaw's replies in substance were:

"I have always been sane, medically. When I killed White, I may have been legally insane for a few minutes. I am sane now."

Three years' confinement do not seem to have embittered Thaw. Today he expressed regret for certain of the more unspeakable charges which he made in his will against the man he killed.

At times the witness scored on the District Attorney so palpably that the whole court room joined in his smile of triumph.

One characteristic episode occurred when Jerome asked Thaw to expalin his hostility to Dr. Allan McLane Hamilton, one of the State's former alienists. Thaw said he did not know exactly why he disliked Hamilton. It was like the case of Dr. Fell, he added.

"Who is Fell?" inquired Jerome innocently.

"Why, don't you know?" exclaimed the witness in real or feigned surprise. Then he quoted the first two lines of the nonsense rhyme: "I do not like you, Dr. Fell, The reason why I cannot tell."

Thaw's mood was not always jovial. One line of questions that made him knit his brows had to do with his relations with Evelyn Nesbit before their marriage. Although it has been alleged that Thaw has broken with his wife and that she is aiding the opposition, he showed a strong desire today to shield her name.

Susan Merrill, the chief witness at Tuesday's session, was in court today but did not take the stand. Thaw swore that her most damaging charges against him were untrue.

### PRICE OF WHEAT IS SOARING.

**Advanced Nine Cents and Sold at $1.34 a Bushel.**

(By Wire to The Morning Star.)

New York, July 28.—The price of July wheat was advanced more than nine cents per bushel today on a vigorous demand by the traders on the short side of the market. They finally paid $1.34 per bushel, which equalled the high point of the season. The price of the crop of late months advanced 2 cents per bushel on reports of black rust in the Northwest. Upwards of 130 loads were taken for export today.

## WRIGHT'S FLIGHT

### Aeroplane Did Not Start on Alexandria Trip.

### BIG CROWD DISAPPOINTED

**Whites and Negroes Assembled in Dangerous Places and Accidents Feared—Some Dread the Wonderful Machine.**

(By Wire to The Morning Star.)

Washington, July 28.—A persistent wind and a suddenly discovered stoppage in the gasoline feed pipe of his motor, prevented Orville Wright from making this evening his final cross-country two-man test of the aeroplane After he had waited in supposed readiness for the start, for an hour with the aeroplane on the mon-rail at Fort Myer, the wind died down at last to little more than a whisper, and then it was discovered that the fuel feed was obstructed. By that time it was dusk, and the flight was declared off for the day, the army officials granted him three days additional time for the test. The time limit under the original contract expired today.

The failure of the trial disappointed an immense crowd, including President Taft, and practically all of the most prominent Government officials. All along the course laid out for the trial people were gathered, on foot and horseback and in vehicles of every conceivable character. At Shuter Hill, just outside of the city of Alexandria, where the turning point was located, was assembled what must have been a fair quorum of the people of that community.

The crowd at Shuter Hill was a serious embarrassment to the officers in charge of the trial; they had with them only a small cavalry detail, and they found it impossible to keep the people off of the great space which they intended to reserve as a landing place for the aeroplane in case it was necessary for the aviators to alight.

In addition to the aspect of the unprecedented flight as a spectacle, there was well understood to be an element of very real peril. In order to maintain a level course it will be necessary for Wright to maintain an altitude of from 50 to 250 feet above the sharply rolling country. Officers of the signal corps have been over this ground repeatedly in balloons, but no one, not even either of the Wrights, has ever been over it in a heavier-than-air machine, and the air currents which will affect such a flight are practically unknown. Wright has discovered in his circuits that trees and buildings and even the contour of the ground profoundly influence the currents of air; he has no chart to show with what whirlpools and eddies of atmosphere he will have to contend on this thrilling journey.

The course was marked by bright yellow cylindrical captive balloons. The only real excitement of the day was when one of these near Fort Myer escaped and displayed a disposition to "beat Wright to Shuter Hill" for there it was captured, somewhat damaged. All along the road between Fort Myer and the turning point a relay series of mounted soldiers in khaki sat on their horses. It was to be their duty, in case of accident, to hasten to the fallen machine and then bear word posthaste back to the fort. Along the course there was no other means of communication and the moon was riding in a night sky before the people along the way realized that there was to be no spectacle tonight. The farmers, white and negro, down the way, view the whole affair with mingled emotions; many of them are chiefly afraid that Wright will drop in through their humble roofs or, what they feel would be more serious, work havoc in fields and gardens. They were anything but pleased tonight when informed that they had still another day in which to dread the new bird of the air.

It was quite dark when the signal corps details pulled down the markers and towed the machine back to Fort Myer. "If weather conditions promise a flight tomorrow we will be placed in the same positions in the morning."

### EVIDENCE AGAINST BREESE

**Secured People To Sign Notes That Were Without Means.**

(By Wire to The Morning Star.)

Asheville, N. C., July 28.—C. B. Leonard, formerly of this city, but now living at Chattanooga, was the star witness of the Breese-Dickerson bank case today. He stated that in 1891 Major Breese wanted to borrow some money from his (Breese's) bank and not being able to do it under his own name, asked Leonard if he would not lend the use of his name on notes. Leonard said he signed seven blank notes for amounts ranging from $500 to $800. He paid nothing on the notes, nor was he asked to pay anything, he said, until after the bank failed. At Mr. Breese's request Leonard said he had secured other people of no means to sign notes he delivered in bank to Breese.

## PULLIAM ATTEMPED SUICIDE

**New York Police Say He Made Effort to Take Own Life in Athletic Club—President of National Baseball League.**

(By Wire to The Morning Star.)

New York, July 28.—Harry C. Pulliam, president of the National League of Baseball Clubs, attempted suicide tonight in his rooms on the third floor of the New York Athletic Club. Standing in the center of the room Mr. Pulliam held a revolver to his right temple. He fired only one shot. The bullet destroyed the right eye and passed through the upper part of the left.

It is not believed that he can recover, although he continued consciousness for some time after the shooting.

The sound of the pistol was not heard in any other part of the club house but Mr. Pulliam in falling to the floor apparently dislodged the receiver of the telephone which was standing on a table nearby so that help was soon at hand. His wounds were carefully dressed but the physicians had little hopes of saving Mr. Pulliam's life.

Coroner's physician Shrady who arrived about half an hour after the shooting, assisted Dr. Higgins in attending to the wounded man's needs. Both of them attempted to get some explanation of the baseball president's attempt to kill himself but he was too dazed to give intelligible answers. The sight of both eyes were destroyed by the bullet, the physicians said. Although the course of the bullet was not traced, it appeared evident that it had entered at least the covering of the brain and it seemed more than likely that the injury to the brain itself was enough to cause death.

Although Mr. Pulliam's act at this time was entirely unexpected some of his friends said that at the time of his recent illness it was known that he was subject to severe attacks of melancholia.

Since his return to New York in June he apparently had been in excellent spirits.

### AFTERMATH OF TRAGEDY

**Murderer of Wealthy Indianapolis Citizen Is Removed to Little Rock.**

(By Wire to The Morning Star.)

Little Rock, Ark., July 28.—After being spirited away in an automobile last night W. Y. Ellis, of Pine Bluff, Ark., who shot and almost instantly killed Nathial P. Willis a wealthy resident of Indianapolis, Ind., in the Circuit Court room late yesterday afternoon, has been returned to the Pulaski county jail.

At a corner's inquest over the body of Willis, a verdict finding the killing unjustifiable was returned. The formal charge of murder was preferred against Ellis today.

Willis' body will be shipped to Indianapolis tonight by order of his brother, L. C. Willis, now en route here on a special train. The victim's mother, Mrs. E. Willis and her sister, Mrs. A. R. Kling, are confined to their rooms at the hotel suffering from hysteria.

Senator Davis has temporarily taken charge of their affairs, but says he will not assist in the prosecution of Ellis. He said he believed Ellis intended to kill.

John F. Rutherford the Pine Bluff uncle of Ellis is here and has retained counsel to defend him. Mrs. Ellis the former wife of Willis, has not yet been told of the tragedy.

She is in a sanitarium at Pine Bluff.

### GEORGIA SOLONS BUSY.

**Grubbing Desperately to Find Revenue Producers—Heavy Tax.**

(By Wire to the Morning Star.)

Atlanta, Ga., July 29.—If the Georgia Legislature incorporates into the general tax bill all the provisions introduced by members, it soon will be nearly as hard to get a drink of soda water in the State as it is now to get a drink of whiskey. Face to face with a deficit and with salaries and bills unpaid the solons are grubbing desperately to find revenue producers.

Here are some already passed by the House: $5.00 a year upon each faucet of a soda fountain; $500 per year for each manufacturer of carbonated water; $25 per year upon each bottling machine in the State; a revenue stamp of five cents for each gallon of syrup of tincture of extra manufactures sold.

All these taxes are addition to the tax levied by the cities, towns and villages in which the dealers reside, which have not overlooked the soft drink dealers in their plans for revenue and in addition to specific taxes directed against certain manufacturers of well known bottled drinks.

Except at Rocky Mount with Goldsboro, doubleheaders were in order in the Eastern Carolina League yesterday, Wilmington making it two out of the series with Wilson by splitting a doubleheader, losing the first two to nothing and copping the second by the score of five to nothing, while Raleigh took both ends of the doubleheader from the Highlanders by exactly the same score of two to one.

At Goldsboro the game with Rocky Mount was called after the third inning while the Railroaders were beaten by the erstwhile champions to the tune of four to two, when the game was broken up by rain. The returns at the electric matinee were watched eagerly by the local fans. Sexton did the firing for the locals in the first game at Wilson and although he let his opponents down with only four hits to seven for the Sailors, the game went to the former. Howard pitched the second game and let the Wilsonians down with only three hits.

Wilmington started the first with a pass to Nichols, but Guerrant was out attempting to bunt third strike, Nichols trying to steal second while Billy Ross, to the amazement of even himself fanned. Sexton was wild in the first inning and allowed Schumann a base by being hit by pitched ball; Cooper sacrificed him and then after Armstrong flew to right, Mills cracked one to right field for two cushions and Mills scored while Gilmore was out, short to first.

Each team was out in order in the second and third and bad luck possessed Wilmington in the fourth. After Nichols was out pitcher to first, Guerrant singled to first and advanced to third on Ross' double to centrefield; then Brodie was up and fouled out to catcher and after Levy had been presented with a base, Sharp flew to first. Mills started Wilson's fourth with a single to centre, but Miller hit to Sexton and both he and Mills were out on a double while Gilmore flew to Jayes.

Jayes bingled to right in the fifth for Wilmington but was forced at second by Kite's hit to third; Sexton then hit safely through short but Nichols flew to first and Guerrant hit to short, forcing Sexton at second. Wilson was out in order in its half. In the sixth Brodie hit safely to third after Ross flew to short but was caught at second while Levy flew to first. In Wilson's half of the same period after Schuman was out short to first, Cooper walked and stole second and after Armstrong was out pitcher to first and Mills had drawn another pass, stole third, but Miller was out third to first.

Wilmington was out one, two, three in the seventh and Wilson came near scoring again when Gilmore, first up, hit to short, who threw wild to first and the runner went to second; Zanelli then sacrificed and Bird hit to second who threw Gilmore out at home. Cowell singled to centre but Schuman flew out to centre.

In the eighth after Sexton flew to second, Nichols hit to centre for two bases and Guerrant singled to left but Ross fouled out to catcher and Brodie was too anxious and fanned. Wilson was out in order. The same was true for Wilmington in the ninth, ending the game.

## ENFORCING PROHIBITION.

The difficulty of a proper enforcement of the State prohibition law, especially in communities like Wilmington, Raleigh, Durham, Asheville and some other places where local sentiment is about equally divided or is antagonistic to the measure, is becoming a question of some considerable interest in North Carolina and students of public affairs are beginning to wonder what will be the effect in its last analysis.

Recently the Star's Raleigh correspondence has carried stories of the extreme difficulties which beset the securing of convictions in Wake Superior Court in "blind tiger" cases, however conclusive the evidence against defendants, and more recently Asheville has had an experience in law enforcement which is attracting considerable attention.

It will be recalled that about ten days ago the Good Government League of the mountain metropolis secured the services of one H. B. Adams, a detective, who took the contract to "clean up the town" and with two assistants, secured the closing of 19 "near beer" establishments, the proprietors of which were charged with violation of the State prohibition law in dispensing beverages containing more than the required per cent. of alcohol. This week five of the cases came up for trial and the so-called detective came in for the usual severe grilling at the hands of the attorneys for the defendants, followed on Tuesday morning by the sensational arrest of Adams under a warrant from Guilford county on the charge of skipping a bond of $600 given in two cases for his appearance to answer charges of alleged retailing himself in Greensboro. The Good Government League has been busy issuing statements as to its connection with the affair, and, all told, it appears to be a "pretty kettle of fish" they have put on there. Meantime the officers of the law in Asheville are determined and have called upon the good people of the town for their cooperation in an enforcement of the law, regardless of their personal convictions on the prohibition question.

The Asheville case is strangely familiar to every town and community wherever an enforcement of the law is undertaken, and only illustrates rather forcibly the difficulties with which officers of the law have to contend in dealing with the situation. One of these is the character of witnesses that ordinarily must necessarily be required for this class of work. Lawyers, doctors and statesmen cannot be enlisted in this work of rounding up the illegal sale of liquor and uniformed men in regular organized police departments are obviously disqualified for the work. Men in plain clothes must be hired for this service and once they are upon the stand in court, they are berated as "hirelings," "thugs," their characters are assailed and sometimes, too, beyond all reason, and those behind the enforcement of the law find themselves at their wit's end.

Another very serious difficulty, especially in communities where there is any division of sentiment, is in securing a jury of twelve men among whom there are not one or more who will allow their personal convictions on the prohibition issue to override the weight and consideration that should be given to evidence with due regard for the majesty of the law in spite of their personal opinions, with the result that mistrials are frequent, cases are continued and when they finally come up for trial witnesses are gone.

Another difficulty of convictions in such cases is the fact that the punishment usually inflicted when convictions are secured, is such that it is worth while for friends of the defendant or defendants to be convenient in the court room when, the regular panel having been exhausted, officers of the court begin to summon from among the bystanders, a pernicious custom with which the courts have had to deal for a long time and which has made possible the "professional juror."

All told, the remedy would seem to lie in the creation of healthy public sentiment—one which stands for the enforcement of the law regardless of personal opinion—and the surest method of attaining this public sentiment is for the substantial citizenship to assert itself and be as aggressive as the forces with which they have to contend. The problem in the State is indeed an extremely difficult one and the evidences continue to multiply that there is growing laxity in a proper conception of jury service.

## COUNTY COMMISSIONERS OF NORTH CAROLINA.

Wilmington is highly gratified that the State Association of County Commissioners of North Carolina will come to the ocean to hold its annual meeting, August 9th, 10th and 11th.

The commissioners are the near governors of the State and they stand closer to the people than all other officials. They are important men, for the well being and progress of the counties lie very largely in their hands. They run the business of the people and their aim is to run it for the people. The economical and progressive conduct of public affairs is the key note now, and to advance the counties along all lines and protect the interests of the masses places a grave responsibility on the shoulders of the commissioners. Their desire is to adopt the best system and methods for the performance of their duties, and this can best be accomplished through organization. Hence the State Association of Commissioners was organized a few years ago in North Carolina and at their annual meetings they can get together, compare notes, discuss systems and methods, and swap experiences. They can talk taxing problems, best schools, good roads, sanitation and other vital matters affecting the interests of the people, and it is easy, therefore, to observe what a power for good lies in their State Association.

No county which expects to keep up with the procession should fail to send its representatives to the meeting here in August. They can learn things from each other and spend a few days of the most delightful season of the year at our seaside resorts. Chairman D. McEachern and the other near governors of New Hanover county will see that the visiting near governors and their families shall have a good time, and already it is in the air that there are to be steam and trolly trips to the ocean, big events at Lumina on Wrightsville Beach, extra doings at Carolina Beach, out-to-sea excursions, feasting, "tripping the light," and other things too numerous to mention in the way of making for joy unconfined.

Wilmington will have for its visitors one of its most royal welcomes and they surely will come up against the best time they ever had.

All features of a robber tariff are odious. The features of Senator Aldrich are no exception, but he might have known how ugly it would make him look in the eyes of the people who have that tired feeling brought on by paying high taxes that specifically benefit some grafter industries while providing insufficient revenue for the Government.

The Hon. William Sulzer, of New York, writes that "The people are tired of being humbugged." The Star hopes it's so but concurrence in the allegation will be strictly reserved till they quit putting a Republican Administration in power at Washington.

It is announced from Washington that the census jobs in North Carolina will be pretty apt to go to Republicans. This selfish and monopolistic predilection for all the easy berths is what makes some Democrats despise the Republicans and sinners.

## DELIGHTFUL HOUSE PARTY

Annual Outing to Caswell Station Enjoyed by Large Party.

(Special Star Correspondence.)

Monkey Inn, July 25.—This communication from the house party, now being held at Caswell Life Saving Station, may not escape the waste basket because the Star affords no "funny sheet," but if proper illustrations of actual scenes accompanied the article a special illustrated edition of this issue would doubtless be made.

The party is made up mainly of young people from Southport, though there are guests from other parts of the State. The aggregation is commanded by Mrs. Mary Pepper Skinner, formerly of Southport now of Wilson, N. C., with Mr. and Mrs. P. J. Lumley as the balance of the executive staff. Although Mrs. Mary has recently taken unto herself a new surname, she still retains the important part of the old one, and her caloric energy is not at all lessened by the change. She is the ideal chaperon even though not stout nor short of breath.

As indicated above, this week the Station is known as "Monkey Inn," and the antics of the guests are entirely in keeping with the appellation, "Monkeyland," the official hymn, is rendered by the choir at sunrise and sunset, and after each rendition the entire party joins in giving the following yell: Rah! Rah! Rin and Rah! Rah Rin; we are the monkeys of "Monkey Inn."

Each one of the tribe has been honored with a title indicative of service rendered or personal characteristic. The following are samples:

Mistress Monkey, Mrs. Sam Skinner; Leah's Monkey, Mr. C. Dudly DuBose; Oho You Pretty Monkey, Miss Minnie Pepper; The Little Monkey, Warren Hood; The Literary Monkeys, The three Misses Weeks; That —— Monkey, Ed Cranmer Newton.

The party devotes one night to sleep, the next to sleep-killing, and this alternation is scrupulously adhered to. On the sleep-killing nights enforced shower-baths and pillow fights help pass away the time but the skill shown in devising new pranks is such that the beautiful uncertainty of what is coming next makes monotony impossible.

Viewed from a distance the Station does not appear to be a desirable place for a house party, but of course appearances are usually deceptive. Located on the highest point of Caswell beach, within a stone-throw of the ocean, a few minutes walk from Fort Caswell and within easy communication with Southport by boat, the "Inn" affords an ideal location for marooners. Through the kindness of Captain Dunbar Davis, the Station and all its equipment was turned over to the "Monkeys" for this week, and of course the Station contains everything necessary for easy and efficient housekeeping. The girls do the cooking, a committee of four being assigned to each meal. Warren Hood and "Charley" Loughlin are the men-of-all-work, and ex-officio members of all working committee. "Charley" thinks that cutting seasoned oak wood with a dull ax is excellent exercise, and he declares that he has brought enough water to float the big life boat.

Among the guests present from Southport are the following: Miss Eva St. George, Miss Minnie Pepper, Miss Blanche Newton, Miss Susie Newton, Miss Beulah Weeks, Miss Mary Weeks, Miss Leah Weeks, Miss Annie St. George, Miss Ella Windsor, Mrs. E. D. Guthrie, Mr. and Mrs. T. Hoyle Dosher, Messrs. J. Fred Smith, Richard St. George, Cecil Thompson, Ed Hood, Sanford Ruark, J. S. Craig, Chas. L. Bell, Ed C. Newton, Warren Hood, Junius Davis. The out-of-town guests are Mrs. Sam Skinner, Wilson, N. C.; Miss Anne Adelle Muldrow, Florence, S. C.; Mr. and Mrs. P. J. Lumley, Goldsboro, N. C.; Mr. C. D. DuBose, Marion, S. C.; Mr. Chas. C. Loughlin, Wilmington, N. C.

## CAMPING AT THE LAKE.

Party of Young People From Whiteville on Pleasant Outing.

(Special Star Correspondence.)

Chadbourn, N. C., July 27.—Columbus county has been busy with the social pleasures of the season. The latest is a camping party of 13 jolly young people with three chaperones spending the week on Lake Waccamaw. Among those present are the following from Chadbourn: Misses Lois Williams, Jessica Williams, Sadie Koonce and Mr. J. A. Baldwin; from Whiteville, Misses Sarah Burkhead, Elizabeth Toon, Mrs. E. J. Reedy and Messrs. Robt. J. Powell, Walter H. Powell, Edgar High; Lake Waccamaw, Mr. Junius Potts; Rocky Mount, Miss Annie V. Tillery; Fayetteville, Miss Mattie Lou Anderson.

The sports of the week are divided between lake bathing, sailing, rowing and dancing. Nearly every evening has its informal dance and among those who have visited with the young people are the following: Misses Myrtle Koonce, Mr. and Mrs. R. E. L. Brown and Mr. Robert Clark, of Chadbourn; Mr. and Mrs. H. L. Lyon, Misses Luola High, Pauline Toon, Messrs. Robert White, Martin Schulken, Farrior Powell, Wm. Burkhead, of Whiteville; Messrs. Clyde Council, Wm. McGuigan and Edward Clark. Mr. Fischer, from Wilmington, and Miss Harriet McKnight, of Birmingham, Ala. The young people have dubbed their camp "Easy Life." The servant question has been easily solved and they are equipped with an efficient corps consisting of a butler, who is certainly a unique character; a cook, of rare ability, and two pickaninnies, who serve in the capacity of official hog chasers. Altogether the camp has proved to be one unexcelled for good times and congeniality.

## THOUSAND MEN STRIKE.

Flour Mill Workers Quit Because Workman is Treated Wrong.

(By Wire to The Morning Star.)

Danville, Pa., July 24.—One thousand men are idle as the result of a strike of puddlers at the Montour Rolling Mill Department of the Shred Iron Co. The puddlers alleging that one of their number had been discharged because he had been overcome by heat and was physically unable to continue work. Mill officials say the man was dismissed because his work was unsatisfactory.

## TWO KILLED IN CLASH

Fearful Collision Between Auto and Passenger Train.

(By Wire to the Morning Star.)

Chicago, July 24.—Richard Flagg, of Hillsdale, Mich., was instantly killed and Harris Eberhardt died of injuries received in a collision five miles south of Hammond, Ind., today between an automobile in which they were riding and a Monon passenger train. E. G. Eberhardt, father of one of the young men killed, jumped out of the machine before the crash came. Arthur Carlson, the chauffeur did likewise.

## A VISITORS' IMPRESSIONS

**Wrightsville Beach and Wilmington as Seen After Lapse of Fifteen Years—Signs of Improvement Everywhere.**

(Editor G. A. Jones in Snow Hill Square Deal.)

After a lapse of 15 years we paid Wilmington and Wrightsville Beach a weeks visit, and to say we were amazed at the rapid strides of progress we noted everywhere, is putting it mildly. Fifteen years ago Wilmington had a population of, if we mistaken not less than 25,000 and today she has a population of over 35,000. The contrast of now and fifteen years ago made us sit up and take notice. We saw such wonderful improvements in industrial growth it was simply stupendous. Everywhere there was evidence of thrift and enterprise to overflowing. We saw many hundreds of magnificent buildings that have gone up since we perambulated that city. The crepe of poverty no more hangs at the door of Wilmington. She has lifted that veil long since and it is today all sunshine and flowers of progress, peace and happiness. The people of Wilmington are pure and noble as any in the world. True to themselves and meeting the stranger with a glad hand. They are hopeful and proud of their splendid city, and we could write this paper full and then the half would not be told of this magnificent city and its wonderful achievements of wealth and progress. We want to turn our thoughts to Wrightsville Beach near Wilmington. Undoubtedly this is the grandest and most magnificent summer resort on the Atlantic. It is reached from Wilmington over the Tidewater Power Company's Electric Railway, the most complete and up-to-date electric rail road in the whole country. All along this splendid line of road to the beach the scenery is grand, and just before reaching the beach for nearly two miles the scene is something awe inspiring. Man's eye never rested on a grander scene under the sun. At the beach is a grand palace of pleasure called Lumina ,an enterprise maintained by the Electric Railway Company, and a grand thing it is. Free to the public where beautiful music is rendered by one of the best bands in in the United States. As the band plays and the hundreds of young people dance on the great pavilion and the rest who do not care to dance can sit around and listen to the sweet strains of music and watch the ocean roll on the great waves in the glare of hundreds of electric lights that illuminate the great two story structure that stands partly over the ocean and the waves splash under it. Every night this great palace is crowded to its utmost with agreeable congenial people mingling there for pleasure. It is grand beyond description. Delightful in the extreme. No one but a deep dyed in the wool fool could stand on the veranda of Lumina next to the ocean and for one moment think there is no God. It is grand beyond description where nought but the throbbing of one's heart says God made it look like this for he has smiled on this beach. Lumina alone is enough to enhance the popularity of any resort much less the many other things that go to make Wrightsville Beach the Atlantic city of the South. You will find modern and excellent hotels on the beach. One of the best is the Seashore hotel under the management of Mr. E. L. Hinton. There are many beautiful summer homes, club houses and cottages for miles along the beach and the railway. There is a home or hospital for the care of sick children on the beach. The Tidewater Power Company have left nothing undone to make Wrightsville Beach the great and grand place it is. On Monday night, July 5th, the Power Company hauled five thousand people to the beach and in all this throng of people not one was seen under the influence of whiskey. The surroundings are most delightful all about the beach, socially, morally, and especially physically for it is most healthful and invigorating. Nothing to disturb the tranquility of dreams wafted to you on the ocean breezes. It's charming health promoting, exhilarating, tranquilizing and dazzling at Wrightsville Beach. We could write this paper full and then there would be something left unsaid. So go to see for yourself. The A. C. L. R. R. offers low rates to Wilmington.

—Asheville, July 27.—J. W. Buchanan of this city has sold to W. J. Oliver Manufacturing Company of Knoxville, his patent revolving beam plow. It is understood that he received about $25,000 and a royalty for his invention. The plow is a double wing, revolving beam tool and can be used both in level ground or on hillsides. He demonstrated his plow here some time ago, and it has been pronounced one of the most satisfactory plows on the market. M. L. Roth, of Asheville, is also interested in it, financially.

## KENAN-HAWKINS NUPTIALS

**Friends Here Will be Interested in Popular Atlanta Marriage.**

The announcement of the marriage of Mr. Thomas S. Kenan, Jr., brother of Graham Kenan, Esq., of this city, and Miss Annice Hawkins, a popular young lady of Atlanta, which was solemnized in the latter place on Tuesday morning will be learned here with much interest by the many friends of the groom.

The Atlanta Journal of the 28th gives the following account:

Mr. and Mrs. Frank Hawkins announce the marriage of their daughter, Annice, and Mr. Thomas S. Kenan, Monday evening, July 26.

In the absence of Dr. C. B. Wilmer, the bride's pastor, Rev. Dr. Daniel, of the First Baptist church, performed the ceremony.

The young people were to be married in the early autumn, but recently decided to be quietly married at once and leave for an extended western trip.

Miss Hawkins is the second daughter of Mr. and Mrs. Hawkins, and only returned last fall from Europe, where she spent several years studying music and French. She was introduced by Mr. and Mrs. Hawkins at a brilliant cotillon at the Piedmont Driving club last fall, and was one of the most popular of the season's debutantes.

Mr. Kenan is a North Carolinian by birth, is one of the most prominent young business men in Atlanta, being connected with the Southern Cotton Oil Company. He is a member of the clubs of Atlanta, and one of the most genuinely popular young men in society.

## TWO TRIED FOR LARCENY.

**Recorder Furlong Gave Negro Man and Woman 12 Months Each.**

There were two defendants before Recorder Furlong yesterday morning, both charged with larceny. Fred Hall, colored, arrested early yesterday morning by Patrolman Leon George, was found guilty of stealing a pair of shoes from Pilot J. F. Creel, of the steamer City of Fayetteville, and was sent to the county roads for 12 months. Mr. George saw the negro shortly after he left the boat about day-light, dodging about the streets in a suspicious manner with a package under his arm. He placed the negro under arrest and it was found that the package contained the shoes stolen from the boat. The negro claimed that his sister purchased the shoes for him, but they were several numbers too small for his feet.

Sis Baldwin, a negro woman, was sent to the county farm for 12 months for the larceny of $7 in money from Lewis Fennell, colored, a caller at her house Tuesday night. She denied the theft of the money, $6 of which was recovered and given back to Fennell. After sentence had been passed the negress sat on the railing in the police court and laughingly remarked that she thought she would get a term of 10 or 15 years, and that 12 months was no sentence at all.

## CUSTOM HOUSE PETITION.

**Will be Circulated to Secure Endorsements for Up-town Site.**

A petition favoring the proposed up-town site, on Princess, Second, Market and Third streets, for the Custom House will be circulated in the city within the next few days for the purpose of securing the endorsement of Wilmington citizens to be presented to the Secretary of the Treasury.

A number of those interested in the proposed site mentioned haye recently been busily engaged securing the proper data in regard to this location and the same will be embodied in the petition, which presumably will be forwarded to Washington.

**Death of Infant Child.**

Friends of Mr. and Mrs. Charles T. Grant will express the deepest sympathy for them in the death of their infant daughter, Katharine M. Grant, whose death occurred at the home, No. 815 North Eighth street yesterday morning at 2:55 o'clock. Her death was due to meningitis. The funeral will be held from the home this morning at 9 o'clock, Elder J. W. S. Harvey, officiating.

## AMMIE CUMBER CONVICTED

**After Deliberating Over Five Hours Jury Finds Defendant Guilty of Selling Whiskey—Other Matters in Superior Court.**

In the Superior Court yesterday Ammie Cumber, a young white man, was found guilty of selling whiskey. The jury returned its verdict at 4:30 o'clock in the afternoon after having been out for over five hours. Judge Allen deferred passing sentence until this morning. The case was appealed from the Recorder's court.

In view of the result of the trial of J. H. Murphy on Tuesday there was considerable interest and much speculation in the Cumber case. After an hour had passed and no verdict had been returned many of the spectators decided that the result would be the same as in the Murphy case—a mistrial. There was only one witness against the defendant, Patrolman D. M. Saunders, who worked up the cases against him. K. C. Sidbury, Esq., appeared for the defendant and Acting Solicitor Koonce prosecuted. At 12:30 o'clock the jury filed into the court room and asked the judge for information concerning a portion of the testimony of the officer. Some of the jurors understood the officer to say that he delayed issuing the warrants for two days after the alleged purchase of whiskey in order to allow the defendant time to get out of the city, when in reality he testified that the warrant was not issued immediately because he was afraid that the arrest of Cumber would frustrate his plans in nabbing one or two others suspected of the same offense. Shortly after the convening of the afternoon session the jurors asked that they be given dinner and were sent to a cafe in charge of Deputy Sheriff Howe.

The jury was composed of the following: R. G. Sellars, J. P. Carr, Forest Padrick, C. L. Dickinson, G. A. Brindell, J. M. J. Windley, R. H. Reville, J. E. Hale, J. W. Duls and T. K. Curtis.

When court reconvened yesterday morning Judge Allen announced that he had decided to remand the case against Thos. James, alias "Lomax," charged with selling whiskey, back to the Recorder, owing to the irregularity in the warrant. Just before adjournment Tuesday afternoon Hon. John D. Bellamy and Walter P. Gafford, Esq., moved that the case be dismissed on the ground that the warrant upon which the defendant was tried, convicted and sentenced by the Recorder was issued by Chief of Police N. J. Williams, whose term as a justice of the peace had expired. The matter was taken under advisement until yesterday when the decision was rendered as above noted. Judge Allen fixed the bond of the defendant at $100.

The same entry was made in the cases against the following for a similar offense: Boss White, Henry Taylor, alias "Prince Toler," Cornelius Moore. The cases will go back to Recorder Furlong and be tried again. The defendants can hardly gain anything by going back to the Recorder. However, this is said to be the proper mode of procedure since the act creating the Recorder's court gives the Recorder jurisdiction in such cases. There were several cases tried yesterday on warrants issued by Chief Williams, but the irregularity was waived by counsel for the defendants.

The remainder of the day was taken up with the trial of two cases against Hartsfield Crandall, a well known character, charged in one case with assault with a deadly weapon upon Lee Justice and in the other for the larceny of a watch from Lee Justice. The jury found Crandall guilty of a simple assault and in the larceny case he was acquitted. He is also charged with selling whiskey and this case will probably come up as soon as the Barge murder case is disposed of. The defendant is represented by A. J. Marshal and Thos. D. Meares, Jr., Esqs.

The trial of Ben Barge, Jr., colored, for the murder of John Phifer, also colored, in this city last Fall, will begin this morning. A special venire of 75 has been summoned from which to select the jury. It is thought that the case may be disposed of today. Wm. J. Bellamy, Esq., represents the defendant.

Solicitor Rodolph Duffy arrived yesterday from his home in Jacksonville and was in court for a short time. He is still indisposed, though he is improving.

## MOORE'S CREEK TODAY.

**Many Wilmington People Will Attend the Celebration.**

A large number of Wilmington people will go to Moore's Creek today to attend the annual celebration of the Battleground Association. They will leave here on the 8:40 o'clock train, arriving at Currie at 9:25 A. M. Some will return on the evening train while others will come back on the freight train in the afternoon. The Coast Line has announced a special round trip rate of 60 cents. A special train will be operated over the Coast Line from Fayetteville to Currie, leaving Fayetteville at 6 o'clock this morning and returning in the evening. It is expected that this train will be crowded with people from the upper Cape Fear section. President James F. Moore, of the association, confidently expects an attendance of upwards of 5,000.

The unveiling of the monument to the Scottish Highlanders will be one of the special incidents of the day. The monument will be formally presented to the association by Prof. M. C. S. Noble, of the University of North Carolina, and will be accepted by President Moore. The orator of the day will be State Auditor B. F. Dixon, who arrived in the city last night from Raleigh, and will go to Currie this morning.

# SUNDAY SCHOOL CONFERENCE

**Big Day in History of Zion Church, Town Creek—Several Fine Addresses Delivered and Other Features.**

Rev. W. L. Cuninggim, presiding elder of the Wilmington district, and several other Wilmington people attended the Sunday School conference of Town Creek Circuit, Brunswick county, at Zion church yesterday, returning to the city late in the afternoon.

Rev. T. H. Bain, pastor of the Town Creek circuit ,presided over the meeting. The Sunday Schools at Leland, Bethel and Zion had a large number of delegates present. The singing and the recitations by representatives from each school, which occupied the forenoon, were very creditable indeed, showing that great care had been exercised in the training. At 12 o'clock a sumptuous dinner was served upon the grounds. It was served in old-fashioned picnic style and was heartily enjoyed by all.

At 1 o'clock the conference reconvened in the church. Rev. Dr. W. B. North, secretary of the North Carolina Conference Sunday School Board, delivered an able address on the "Sunday School Work of the World." Dr. North's remarks aroused considerable interest in Sunday School work. E. H. Cranmer, Esq., of Southport, made a strong appeal to the laymen of the church to assume more thoroughly the duty they owe the children of their community in taking a more active part in Sunday School work. "The Man in the Sunday School" was the subject of an able discourse by Rev. W. L. Cuninggim, presiding elder.

It was a great day for the Methodist church and its Sunday School interests in the bounds of the Town Creek circuit. The conference opened the eyes of many of those present to the great opportunities to do work in the Sunday School.

Rev. T. H. Bain, the popular pastor, deserves great credit for planning and bringing the conference to such a successful issue.

## PECULIAR DETERMINATION

**Interesting Question Presented in False Pretense Cases.**

In Justice Bornemann's court at 4 o'clock yesterday afternoon the five cases against Z. H. Barnes, collector for Edge & Co., a sanitary firm, charged with false pretense, it being charged that he collected money for work done by Furlong & Co., were called. The defendant had demanded a trial by jury and 12 citizens had been summoned from which to select the required number of six.

Walter P. Gafford, Esq., who represented the prosecution, moved that the panel be quashed on the ground that a justice of the peace had no right to have a jury to sit in a case in which the charge is a felony. Joseph W. Little, Esq., counsel for the defendant, took the opposite view and argued that it was entirely proper that a jury should pass upon cases in a magistrate's court. The justice overruled the motion of Mr. Gafford, whereupon Mr. Gafford stated that he would take a nol pros and left the court room.

Mr. Little holds that the cases are still pending in Justice Borneman's court against his client; that a magistrate cannot enter a nol pros in that manner; that in order to secure a nol pros the prosecution must swear that it cannot make out a case, which was not done. The defendant advanced $3.00 which was to pay the jurors in case he lost the cases. Mr. Little contends that inasmuch as his client was not convicted the amount should be returned or the trial of the case should proceed before a jury. Constable W. B. Savage, who summoned the jury, has not been paid for his services and is "up a tree" as from whom he will collect it. There will likely be some interesting developments in the case later.

## MR. J. ED SMITH APPOINTED

**Becomes Supervisor of Car Repairs for Atlantic Coast Line System.**

An official circular from the office of the General Superintendent of Motive Power of the Atlantic Coast Line Railroad Company announces, effective August 1st 1909, the appointment of Mr. J. Ed. Smith, of this city, as Superintendent of Car Repairs for the entire system with headquarters in Wilmington, reporting and receiving instructions from the office of the General Superintendent of Motive Power. For the past two years, since the transfer of Mr. A. B. Corinth to Rocky Mount, Mr. Smith has been general foreman of the shops in this city and is a young man of splendid executive ability and technical and practical knowledge of the department of the railroad service in which he is engaged. He will travel over the entire system, but will continue to reside in this city, his many friends will be glad to learn. Mr. Smith, who receives this promotion on his merits, is to be congratulated upon his rapid rise in the railroad service. He will be succeeded as foreman of the shops by Mr. H. B. Coodknight, of Rocky Mount, who has already arrived. They are stopping at the residence of Capt. C. M. Weathers, on Third street.

## 250 MILES IN A CANOE

**Two Young Men Had Fine Trip From Chapel Hill to Wilmington.**

After traveling an inland water route from Chapel Hill, N. C., to Wilmington, a distance of fully 250 miles, in a canoe, Messrs. Duncan MacRae, of Chapel Hill, and Elden Bayley, of Springfield, Illinois, two graduates of the University, arrived late Tuesday afternoon and report their novel trip a most successful and enjoyable one.

The young men are spending their vacation in this manner and left Chapel Hill on the 13th of the month in a canoe of their own and made their way through creeks and rivers, which they found all navigable for a small craft of the type used. The trip began on New Hope creek in Orange county, between Durham and Chapel Hill, and from this they finally drifted down into Haw river and then after a long stretch came into the Cape Fear.

They made several stops en route the principal one at Fayetteville, where they remained a day or so to obtain provisions. They experienced fine weather most of the time and the water route was as interesting as it was successful. This is the first trip of the kind on record for the season. Messrs MacRae and Bayley are spending some time here and at Wrightsville Beach.

## DIED YESTERDAY MORNING

**Mrs. Jamal Simon Died at Hospital After Brief Illness.**

Mrs. Jamal Simon, wife of Josh Simon, a well known Front street Syrian merchant, died at the James Walker Memorial Hospital at 7 o'clock yesterday morning after a brief illness. The remains were carried to the funeral parlors of Mr. W. E. Yopp and prepared for burial, being removed late in the afternoon to the home, 115 South Front street, where the funeral will be held, probably this afternoon.

Mrs. Simon was 18 years old and had been married only about 19 months. She is said to be of royal blood in her family for the past 13 generations. She was married to Simon in Syria about 19 months ago. She was a most estimable young woman and was held in the highest esteem by all who knew her. She was a favorite among the Syrians of the city and most all of their places of business were closed yesterday as a mark of respect.

## MRS. R. C. HARDISON DEAD

**Passed Away Monday Afternoon—Funeral Yesterday Morning.**

Mrs. Mattie D. Hardison, wife of Mr. R. C. Hardison, a conductor of the Tidewater Power Co., died Monday afternoon at 5:30 o'clock at the home of a relative near Burlington, where she went Saturday in the hope that the change in climate would prove beneficial to her health, which had not been good since about Christmas. Upon her arrival there she grew worse and Sunday her husband was telegraphed for. He left immediately and was at her bedside when the end came. The remains were brought here Tuesday night and carried to the family residence, 613 Dawson street, from whence the funeral was held at 10:30 o'clock yesterday morning, conducted by Rev. J. S. Crowley, pastor of Immanuel Presbyterian church. The interment was in Bellevue cemetery. The pall bearers were: Messrs. J. W. Lewis, T. J. Hodges, M. M. Moore and J. A. Hines.

## DEATH OF YOUNG LADY.

**Miss Helen Crawford, of Chester, Pa., Died Here Yesterday.**

Many friends of Mr. and Mrs. F. A. Longbottom deeply sympathize with them in the death of their sister, Miss Helen Crawford, which occurred at their home, 514 Ann street, at 2 o'clock yesterday afternoon. Miss Crawford was a daughter of Mr. and Mrs. Andrew Crawford, of Chester, Pa., and had been here on a visit to her sister for the past four months. She was 18 years old and was an attractive and popular young lady and during her brief stay here made a large number of friends who will be deeply pained to learn of her death. She had been ill for the past four or five weeks, though her condition was not considered alarming until a few days ago.

Accompanied by Mr. and Mrs. Longbottom the body will be carried to Chester, Pa., tonight and the interment will either take place there or at Wilmington, Del., where the young lady was born.

## LOCATES IN FAYETTEVILLE

**R. W. Herring, Esq., Forms Copartnership With J. Sprunt Newton.**

Friends will be interested to know and will at the same time regret to learn that R. W. Herring, Esq., for the past three years a prominent young member of the Wilmington bar of the firm of Kenan & Herring, has decided to locate in Fayetteville, for which city he will leave this morning, having formed a copartnership with J. Sprunt Newton, Esq., a leading attorney of the Cumberland bar and attorney of the City of Fayetteville. Graham Kenan, Esq., with whom Mr. Herring has been associated while in Wilmington will continue the practice of the firm in this city with offices in Rooms 316 and 317 Southern Building. Wilmington regrets exceedingly to lose Mr. Herring and hopes that he will be pleasantly situated in his new home.

**Bound Over to Federal Court.**

John Lewis Smith and James Henderson, colored, were given a hearing before United States Commissioner George Harriss at 4 o'clock yesterday afternoon on the charge of stealing brass equipment from the Naval Reserves boat "Chase." Smith was represented by Geo. L. Peschau, Esq., and Henderson by Brooke G. Empie, Esq. Smith testified that he carried the brass up town for which Henderson promised to give him 50 cents. He denied any connection with the robbery. Henderson also denied implication in the theft. Probable cause being found the negroes were recommitted to the county jail in default of bonds in the sum of $500 each to await the next term of Federal court.

## TEMPORARY REPAIRS MADE.

**Northern Train Out of Wilmington Last Night First Over Trestle.**

Temporary repairs having been completed, the northbound train from Wilmington last night was the first to pass over the Neuse river bridge of the Atlantic Coast Line, between Dudley and Goldsboro, since the partial wreck of a span of the structure by a derailed freight car last Friday. A double shift of men have been at work on the wreck since it occurred and the repairs now effected are only temporary but are quite sufficient for the resumption of traffic. While the line was closed to traffic except by transfer the Pullman cars on the northbound train have been detoured via Fayetteville with little delay.

## MATTAMUSKEET DRAINAGE

**Complications Have Arisen Over Plan to Sell to Ohio Capitalists.**

(Special Star Correspondence.)

Raleigh, N. C. July 28.—The problem of just what disposition shall be made of Mattamuskeet Lake and the State's adjacent swamp land holdings is giving the State officers composing the State Board of Education a great amount of concern just now.

There was announced some weeks ago a proposition from Ohio capitalists, virtually accepted by the board to sell outright on condition that the syndicate purchasing shall participate in a local drainage district that would result in the whole lake and swamp territory being made available for agricultural purposes. This has been attended by complications that endanger its consummation. There is strenuous opposition on the part of owners of adjacent swamp lands and it is in the hope of harmonizing these differences that a conference between members of the State Board of of Education, land owners of the district and others interested is being planner. The meeting was to be held on Tuesday of next week but it developes that Hon. John H. Small, Congressman from the First district, cannot attend at that time so there is at this time correspondence between State Superintendent of Public Instruction J. Y. Joyner and Congressman Small looking to an agreement on a date when the conference can be held.

## SPANIARDS LOSE HEAVILY.

**21 Officers and 200 Men Killed—A Serious Revolution.**

(By Wire to The Morning Star.)

Madrid, July 28.—The revolution in Catalonia has reached a serious stage. There is much bloodshed and artillery has been employed in the streets of Barcelona to quell the outbreaks. The city is terror stricken. The revolutionists are reported to be fighting desperately behind barricades.

King Alfonso hastened back to Madrid from Sansebastian and at once issued a proclamation of martial law and suspending constitutional guarantees throughout Spain. Orders have been given to the governors of the provinces to crush the revolution at any cost without hesitation and without pity.

Today marks a black chapter in Spain's history for there was tragedy both at home and abroad. The King reached here in time to learn that part of his army at Melilla had had a bloody battle with the Moors which, though finally a victory for the Spaniards, cost the lives of 21 officers and a total of 200 Spaniards killed or wounded.

## WASHINGTON MAN KILLED.

**George Reed Cut to Pieces by Freight Train Last Night.**

(By Wire to The Morning Star.)

Wilmington, Del., July 28.—George Reed, aged 25 years, of Washington, N. C., was cut to pieces by a freight train on the Pennsylvania railroad here tonight. Until yesterday he was a fireman on the fishing steamer E. Warren Reed, of Reedville, Va. A companion, Clifton Kitchin, aged 25 years, of Norfolk, Va., escaped by throwing himself between the tracks of passing trains.

President Ebetts, of the Brooklyn National League Club, yesterday announced that he had secured Pitcher Dent and Infielder Redmond, of the Winston-Salem, N. C., club, and Pitcher Vaughn, of the Macon club.

**Charles Hawtrey's Twang.**

"Once on a time"—it is Charles Hawtrey who tells this tale—"I tried to sink my identity in the part of a man who was my dearest friend. I had known him since he was a baby. I wanted to sink my own identity and copy him. I was not allowed to. This is how it happened:

"De Wolf Hopper had put on in London a burlesque of a play in which Mrs. Langtry and myself were acting. Some one burlesqued me, of course. He had merely a few lines to say, but he did it very well. It so happened that on the night it was produced I was not acting. So I strolled round to Hopper's theater and suggested to him that I should take the part myself that night. The idea of parodying oneself seemed to me rather original. He consented, and on I went just in dress clothes, as the character called for. It was a great success, all except the identification. I lost that, but not enough. The London Times came out the next morning with the following:

"'The resemblance to Mr. Hawtrey was certainly remarkable and would have been more so had it not been for the pronounced American accent.'

"That was the first and last time I have ever been accused of a twang."—New York Tribune.

Summary: Two-base hits, Mills, Ross, Nichols; bases on balls, by Cowels 2, by Sexton 3; struck out, by Cowels 6, by Sexton 2.

**Second Game.**

Wilmington started the second game with a vengeance, for after Nichols was out second to first, Guerrant walked but was out trying to steal second; then Ross took a stroll and Brodie clouted one to centre for two bases and Ross scored; Levy then sent a drive down into centre and Brodie crossed the marble, Levy taking second on the throw-in. Sharp next walked, but Jayes hit to third forcing Levy. Schuman and Cooper, the first two Wilsonians to face Howard, fanned, and Armstrong flew to first.

In the second Lane relieved Buckingham in the box for Wilson and Ashton was passed; Howard then hit to pitcher and both runners were out on a double, Nichols flying to centre. Wilson was up and down in order, Miller fanning.

Except a pass to Ross after Guerrant was out pitcher to first, there was nothing doing for Wilmington in the third and a pass to Zanelli for Wilson was all for the Tobacco bugs.

Wilmington was out in order in the fourth and except a single by Mills with two down thre was nothing for Wilson. Both teams were out in order in the fifth, Howard fanning Gilmore, Zanelli and Bird in succession.

Ross started the sixth for Wilmington with a single to centre but was forced at second by Brodie's hit to pitcher; Levy then singled to left and Brodie went to third, scoring on a passed ball, Levy going to second; Sharp was out second to first; Jayes flew to third.

After Lane had fanned Schuman singled to left ,but Cooper whiffed and Armstrong flew to Brodie. For Wilmington after Ashton fanned, Howard singled to right and took second on a passed ball, scoring on Nichols' clout to left for two cushions; Guerrant flew out to left and Ross was out pitcher to first. Wilson was one, two, three and out.

Wilmington ran in another after Brodie had fouled out to catcher and Levy had fanned. Sharp walked; Jayes hit to short who threw wild and Sharp scored; Ashton was out third to first. In the eighth Ross had the misfortune to break a finger trying for Zanelli's foul, and was relieved by Kite; Zanelli was out second to first; Bird second to first; Lane hit safely by third, but Schuman was out pitcher to first.

Both teams were out in order in the ninth.

**Rain at Goldsboro.**

Goldsboro, N. C., July 28.—With the score 3 to 2 in favor of Goldsboro, rain came down hard in the fourth inning of today's game preventing the "Giants" from holding their position at the top of the percentage column, sending them to second place, just eight points behind Raleigh and eight ahead of Wilson. Score:

Goldsboro .....0003—3 3 0
Rocky Mount .....1100—2 4 2

Bussey and Fulton; Stubbe, Thorpe and Conn and Walsh; time 43 minutes; umpire Smith; attendance 400.

**Doubleheader at Raleigh.**

Raleigh, N. C., July 28.—Raleigh took both ends of the doubleheader from Fayetteville today, score each game 2 to 1. Fine work in the box by Booles in the first and a good hitting record in the second spelled Raleigh's double victory. Each of the three hits by the Red Birds in the second was for bases. Score:

## ROLE OF THE COCOANUT.

**The Staff of Life to the Natives of Sea Washed Island.**

It is more than a coincidence that the tree which furnishes a greater amount of available material to man than any other in the vast kingdom of vegetables is the first to spring up on the bare rocks of the newly arisen coral reef. The cocoanut, so formed that it may have floated halfway across the Pacific, is thus universally distributed throughout tropical islands.

It thrives best near the sea, seldom penetrating far into the interior. Its hard shell is a coat of mail for the embryo plant, enabling it to stand hard usage for a protracted period and locking up securely the precious life in miniature.

The fibrous husk which envelops it and is seldom seen on the market on account of the greatly increased bulk breaks the jar which would be inevitable should the hard nut fall unprotected from the tall tree to the ground sixty or ninety feet below.

Such a blow would scarcely fail to break the shell, occasioning the loss of the nourishing milk so necessary to the germ. The outer husk not only breaks the jar of a fall, but buoys it up on the water, while the tough outer cuticle is waterproof.

Thus is the tree which offers to man almost in the raw state all his necessities freely scattered where the warm seas and their borders offer a footing, and from it the humble native secures sugar, milk, butter, wine, vinegar, oil, candles, soap, cups, ladles, cordage, matting, thatch for roof and material for raiment, combining food, clothing and shelter in a single gift, continually making waste places habitable.—New Age.

**Building Up a Speech.**

Before making a speech Charles Dickens would decide on his various heads and then in his mind's eye liken the whole subject to the tire of a cart wheel, he being the hub. From the hub to the tire he would run as many spokes as there were subjects to be treated, and during the progress of the speech he would deal with each spoke separately, elaborating them as he went round the wheel, and when all the spokes dropped out one by one and nothing but the tire and space remained he would know that he had accomplished his task and that his speech was at an end.

**Doing It.**

Old Lady (to grocer's boy)—Don't you know that it is very rude to whistle when dealing with a lady?

Boy—That's what the guv'nor told me to do, mum.

"Told you to whistle?"

"Yes'm. He said if we ever sold you anything we'd have to whistle for the money."—London Fun.

## IMPORTANT NOTICE.

Advertisers and those of our friends who have notices they desire to appear in the following morning's paper are again remainded that with limited equipment for the present, it is absolutely necessary in order to connect with the early mail, that we have copy in hand at the earliest possible moment on the evening before the publication is desired. We dislike to persist in these requests, but in order that we may properly serve our patrons until additional machinery is installed, it seems absolutely necessary to again call attention to this little request for consideration at the hands of a clientele that has always been most generous.

—Fayetteville, July 27.—Mr. Bob Atkins was arrested charged with horsewhipping a negro preacher named Sam Maultsby near the Clarendon bridge. It is said that the preacher made a remark about Mr. Atkins driving over the bridge in a trot, calling attention to another party that it was a $5 fine to do so. The party told Mr. Atkins who showered the negro with his buggy whip.

To buy advertised things is coming to be a fixed habit of the people—and its a profitable habit, too.

## CAN'T BE SEPARATED

**Some Wilmington People Have Learned How to Get Rid of Both.**

Backache and kidney ache are twin brothers.

You can't separate them.

And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys.

B. R. King, police sergeant, 808 Wooster street, Wilmington, N. C., says: "I know Doan's Kidney Pills are a valuable kidney remedy. I used them and they proved of great benefit in relieving the pain in my back and soreness over my kidneys. This remedy stopped these troubles after plasters and liniments had failed. I procured Doan's Kidney Pills at Robert R. Bellamy's drug store and gladly give them my recommendation."

SPIRITS TURPENTINE

—Lee County News: The Sanford cotton mills shipped last week 125,000 yards of their fine Father George sheetings to the New York Bleaching Mills. Their goods go to every State in the Union.

—Albemarle, July 27.—As a result of the election today, for the purpose of voting bonds to the amount of $67,000 for lights, water and sewerage, the bonds carried by an overwhelming majority early this morning. Those opposed saw their finish and they put forth very little efforts.

—Fayetteville, July 27.—A telegram here announced the death of Mr. A. A. McDuffie at his home in Atlanta. Mr. McDuffie was about 61 years of age and was born in this city. He leaves a wife and two sons. He went to Georgia when he was 17 years old.

—Charlotte Observer: Mr. I. W. Gregory, representing the Collins Wireless Telephone System, has established offices in the Realty building and will make Charlotte his headquarters for the district of North and South Carolina. Mr. Gregory has been giving interested spectators demonstrations in this new device which has just recently reached such a state of perfection that it is rapidly growing into popular favor and usage. Mr. Gregory will also take stock for the concern in addition to acting as sales agent for the Carolinas. Without any wire connection and with doors completely closed Mr. Gregory has been demonstrating the effectiveness of his system by talking from one room to a person across the hall in another room. Every word that he uttered could be heard perfectly and all the advantages of the ordinary telephone system can be commanded with the new device.

—Asheville, July 27.—In the United States Circuit Court today Judge Newman handed down his decision in the matter of Peter D. Rouche vs. the Southern Railway Company and Messrs. Summer, Flack and Hollman, denying the motion of the plaintiff to remand to the State courts. This means that the suit of Engineer Rouche against the Southern Railway for $50,000 damages must be tried in the United States court. The court denies the motion to remand on the ground that three co-defendants, Summer, Flack and Hollman, were mere employes of the Southern and further that some of the had not been served with summons. The case will probably be tried before Judge Newman next month. The suit of Engineer Rouche against the Southern grew out of the head-on collision near Swannanoa one Sunday afternoon several years ago, while No. 12, running as an extra, collided with passenger train No. 11, resulting in the killing of two men and the permanent injury of the plaintiff, who at the time was an engineer on the extra.

—Raleigh News and Observer, July 28.—The eloquence of ex-Governor Robert B. Glenn continues to sway his hearers and win for him applause and friends wherever he speaks. He is now engaged in a great mission work, speaking in all parts of the country and has never yet failed to voice an appeal to which his audience did not respond. On last Wednesday he lectured at the Chautauqua in Chicago, and the Herald-Leader of that place had the following to say of him and his address: "Governor Glenn is a big man, mentally and physically. His personality is such that from the moment he appears, even before he has spoken, one realizes that here is one who has a message and the courage to deliver it. Nor is the opinion incorrect. He has a message. The subject of his discourse, 'Our Country, Its Dangers and Possibilities," allowed of a wide scope, and he took advantage of it. The lecture by Governor Glenn was interrupted frequently by loud bursts of enthusiastic applause. When he concluded the applause was long and enthusiastic. What he said will remain in the hands of all who heard it, as it contains many eternal and necessary truths."

—Raleigh News and Observer: Last winter the news came that the Legislature of South Dakota was considering a bill to return to the State of North Carolina the money which Pettigrew and Butler secured for that State in return for permitting those speculative lawyers and a New York syndicate of bond dealers to commit a fraud on the jurisdiction by using the name of the State of South Dakota to sue the State of North Carolina. Not long ago, writing to an old college friend, a prominent educator in South Dakota, Mr. Rufus Hunter, of Raleigh, asked his South Dakota friend about the matter and what disposition had been made of the money. His friend replied: "In regard to your inquiry I would say that the question of returning the North Carolina money was taken up in our State Legislature last Winter, Senator Dillon, of Yankton, being the leader in favor of its return to the place where it properly belongs. But he could not command the necessary two-thirds majority to appropriate it from the State treasury. I heard a number of speeches on this bill which were rather interesting. The situation is rather a peculiar one. The money was presented to the State with the idea of giving it to the University or some other educational institution. But not one of the institutions would have anything to do with it and one of the orators proposed turning it over to the general educational fund, so that it will be divided into such small funds that all the public schools of the State may be assisted and thereby making it unnoticeable. Although it seems impossible to get the necessary majority to return the money I feel sure that no further money of this kind would be accepted and also that Governor Herreid accepted the first offer without realizing just what it meant."

S.S.S. MAKES A LASTING CURE

Not only its proven ability to cure, but its absolute safety as a remedy, has made S. S. S. the most extensively used of all medicines in the treatment of Contagious Blood Poison. Unlike the strong mineral mixtures, which temporarily remove the outward symptoms and shut the disease up in the system, there to carry on its destructive work on the delicate and vital organs, S. S. S. strikes directly at the root, and by purifying the blood of every trace of the virus, completely and permanently cures the trouble. S. S. S. is Nature's blood purifier, harmless in its action and certain in its good results. It is made from a combination of roots and herbs, each of which has a definite and specific action in purifying the blood. Years were spent in selecting and proportioning the different ingredients, but when S. S. S. was perfected it soon demonstrated its superiority over all other blood medicines, and now, after 40 years, it is still the one and only certain cure for Contagious Blood Poison. While driving out the poison from the circulation S. S. S. builds up and strengthens the system by its fine vegetable tonic effects. If you are suffering with Contagious Blood Poison S. S. S. is your most certain reliance, and because of its freedom from mercury, potash or any other mineral, it is absolutely safe for every one. Attractive Variable Route—Excursion Fares by the ATLANTIC COAST LINE.

The Atlantic Coast Line has issued a folder announcing attractive excursion fares to a number of Eastern resorts, including Niagara Falls, Montreal and Quebec, going and returning by the Atlantic Coast Line as far as Washington, but by widely variable routes north of that city, that is, a passenger can select almost any route from Washington to destination and return by almost any other regular route.

These rates open up a new method of traveling and will no doubt be largely patronized, as New York, Boston and nearly all the Eastern resorts can be reached by one of these "Variable Routes," or what may be more properly termed "Circular Tour," tickets especially as liberal stop-over privileges will be allowed.

One of the folders giving the routes in detail with rates and other information may be obtained by calling on or addressing the undersigned.

On to Columbia! The Trip That Beats Them All.

Thomas H. Knight will run his annual excursion from Wilmington, N. C., to Columbia, S. C., on Monday, August 2nd, when a rare chance will be given to visit one of the most beautiful cities of the entire South at a trifling cost. Columbia aside from its historical interest is a city of generous hospitality. It stands alone in its particular individuality and beauty, and is conceded by travelers who have been everywhere to possess a charm peculiarly its own, about which clusters a wealth of historical associations. There the excursionists will find sources of pleasure which appeal to every taste. It must be seen, its charm is lost in telling. Knight's excursions are always popular and are patronized by the best people everywhere. Train will leave this point at 7:00 A. M. and will leave Columbia Tuesday night at 9:00 P. M. August 3rd. The fare from here is only $2.50. Don't miss the trip of your life.

A DELIGHTFUL NORTHERN TOUR.

Personally Conducted to Washington, Niagara Falls, Toronto, Thousand Islands, Montreal, Quebec. Four days in New York City, at very attractive rates, via SEABOARD AIR LINE.

Mr. C. H. Gattis, D. P. A. and Mr. Jas. Ker, Jr., C. P. A., Seaboard Air Line, are arranging what will certainly be the most popular and delightful tour of the season, especially is this so as the party leave the Carolinas on September 1st, 1909, the most delightful time of the whole year to go on your Summer trip, and they will visit all the principal points of interest in the North—Washington, Niagara Falls, Toronto, Thousand Islands, Montreal, Quebec, Saratoga, Ausable Chasm, Four days in New York City, and Philadelphia, and all the New York theatres will be open for the Fall. An attractive feature of this tour will be the trip up the Historic Potomac, passing the Grand Old palatial home of "The Father of His Country."

The trip is to be made at the lowest possible figure consistent with the first-class hotels and other things connected with the tour, which will include railroad fare, Pullman, hotel accommodations, meals, sight-seeing trips, transfers and in fact, everything, with the exception of meals in New York, and a few other minor expenses, nearly all the sight-seeing trips are included. This last feature is a very good one as it will enable the party to spend their time seeing the sights without the bother of the details, which will be looked after by Mr. Gattis and Mr. Ker, both of whom have had wide experience in this branch of the passenger service. Time will be spent in Toronto during the Canadian Exposition, and stops will be made at all points of sufficient length to enable the party to see all the points of interest without hurrying. Mrs. Gattis and Mrs. Ker will chaperone the tour, and ladies should not hesitate to go alone. The tour will prove a most attractive one. A very attractive illustrated booklet containing detailed information can be had upon application by letter or in person to the undersigned, and those interested should write at once, as the party will positively be limited, and those applying first will get the lower berths, so it will be to your advantage to book early. Every detail has been arranged with the view to making this a most delightful and comfortable tour for all.

### THE COTTON MARKET.

(By Wire to the Morning Star.)

New York, July 28.—The cotton market had a further sharp advance but lost part of the gain and closed barely steady 12 to 14 points net higher. The opening was firm at an advance of 7 to 11 points on a renewal of yesterday's buying movement which was attributed to increasing confidence in bullish August condition reports from private sources before end of the week and from the government at noon next Monday. Old longs were heavy sellers for profits around the initial figures but after some little irregularity the advancing tendency was resumed on a continued general demand until December contracts reached 12.47 and the general list a net gain of 23 to 26 points. Reports of a renewal of dry, hot, weather in Texas and claims that spinners were becoming uneasy over next season's supplies, leading to a better inquiry for forward shipments, undoubtedly helped the advance, but the main factor seemed to be the preliminary reports of a prominent local authority suggesting the crop deterioration rather than improvement in Georgia, Alabama, Mississippi, Louisiana and the Carolinas for the month, while there were rumors that the condition figures of the National Ginners Association expected on Friday morning would be very bullish. The advance of about 75 points from the recent low level attracted heavy selling later in the day, however, as a result of realizing on early purchases and a renewal of local bear pressure on the theory that a low condition figures had been discounted. The market closed some 11 to 12 points off from the top.

Receipts at the ports today were 649 bales against 2,334 last week, and 3,382 last year. For the week 20,000 bales against 18,887 last week and 28,579 last year. Today's receipts at New Orleans 92 bales against 1,303 last year and at Houston 80 bales against 1,322 last year.

Spot cotton closed quiet 10 points advance; middling uplands 12.75; middling gulf 13.00; sales 509 bales.

Futures opened steady and closed barely steady.

### THE DRY GOODS MARKET.

(By Wire to the Morning Star.)

New York, July 28.—The dry goods market continues moderately active. A larger business is being placed on staple prints. Jobbers are receiving more orders from retailers who are in from the South and West. The cotton yarn market is firmer, but trading is limited. The initial business on hosiery for Spring has been fair. The underwear trade for Spring has been irregular in volume. Silk piece goods are active only on certain specialties.

### MARKET GOSSIP.

(By Wire to the Morning Star.)

New York, July 28.—Incidents considered by speculators of most importance were the increase in the dividend on United States Steel stock and the rise in Union Pacific today to above the long predicted price of 200. In the case of the dividend on United States Steel, the compromise rate of 3-4 of 1 per cent. for the quarter was considered an adroit settlement of a perplexing problem as being the contention for the restoration of the 4 per cent. annual rate, and the retention of the 2 per cent. rate.

The consequence was that while the dividend increase failed to bring in any strong new demand sufficient to lift the price of the stock it was singularly free from the usual pressure of realizing sales following a confirmation of favorable predictions.

Points of strength in the stock market helped to sustain prices for which particular causes were assigned. The rise in New York Central was occasioned by renewed rumors of Harriman investment in that stock. Amalgamated Copper suffered from the renewal fall in the price of metal. The upturn in the wheat market called attention to the possible consequence of a crop scare, with the critical period still to be faced.

Bonds were irregular. Total sales par value $3,512,000. United States bonds were unchanged on call. Total sales 672,700 shares.

### FINANCIAL MARKET.

(By Wire to the Morning Star.)

New York, July 28.—Money on call easy 1 3-4 to 2 per cent., ruling rate and closing bid 1 7-8, offered at 2. Time loans firmer; 60 days 2 to 2 1-4 per cent.; 90 days 2 1-2 per cent.; six months 3 1-2 to 3 3-4 per cent. Prime mercantile paper 3 3-4 to 4 per cent. Sterling exchange steady at the decline with actual business in bankers bills at 4.8575 to 4.8580 for 60-day bills and at 4.8715 for demand. Commercial bills 4.85 to 4.85 1-2. Bar silver 50 7-8. Mexican dollars 44.

### CHICAGO PRODUCE MARKET.

(By Wire to the Morning Star.)

Chicago, July 28.—The Tide turned in the wheat market today following the steady decline of the last week or more and prices advanced sharply, final quotations showing net gains of 1 1-2 to 2 3-4. Corn also closed strong, but oats, with the exception of the July delivery, were weak. Provisions broke severely and at the close prices were from 32 1-2 to 1.30 lower than the previous close.

—Winston-Salem, July 27.—The grand jury today returned a true bill of indictment against Policeman N. B. Williams, charged with the murder of Will Freeman, colored, on the 4th of June, in the northern part of the city and the defendant was placed in custody and the trial set for tomorrow afternoon. It is not yet known under which degree of murder the officer will be charged, as all bills of indictment are found in the first degree. The officer's plea is self-defense and he stated before the coroner's jury that he shot in defense of his own life.

**Whiteville Defeats Clarkton.**

Whiteville, N. C., July 28.—The local baseball team went over to Clarkton yesterday to take a game from that team, which they succeeded in doing by the score of 12 to 4. The game was featured by the batting of McAulay for Clarkton, and Richardson for Whiteville. Smith relieved Lumsden in the third and for six innings allowed only two scattered hits. Stone pitched well, but was not given the proper support. Batteries: Lumsden, Smith and Smith, for Whiteville, and Stone and Pope for Clarkton; umpire, Singletary.

(Continued From First Page.)

deavored to get the conferees to make the rate of 45 cents a ton on coal apply to the short ton, which it is said, would make a difference of five cents a ton and operate to advance the rate to equivalent of 50 cents. The Senators interested in getting all the protection possible for coal were not successful in their mission.

Just before the close of the session the rate on print paper was fixed at $3.75 a ton. This is only 25 cents less than the Senate rate and $1.75 more than the House rate. It is $2.25 a ton less than the existing rate.

There was some discussion of iron ore question. Senator Burrows made an effort to get the rate fixed at 20 cents instead of 15 cents a ton.

Hides were left on the free list, contingent upon the adoption of the rule in the House making the action of the conferees in going below the House rates in fixing the rate on leather.

If the report is laid before the House on Friday according to the present programme it will be printed and taken up on Saturday. It is not believed that the House will discuss it more than one day. In this case the Senate may begin with the report on Monday. It is believed it can be disposed of next week.

## JEFFRIES WILL FIGHT JOHNSON.

**Posts $5,000 Forfeit for Contest in Five Months.**

(By Wire to The Morning Star.)

New York, July 28.—Actual steps looking to a fight between James J. Jeffries and Jack Johnson for the heavy-weight championship of the world was taken today when Jeffries, on his arrival from the West, posted $5,000 as a forfeit to bind a match with the negro pugilist for a fight of anywhere from 20 to 100 rounds. Jeffries insists that the fight shall be held before the club offering the largest purse and that when articles are signed an additional forfeit of $5,000 shall be posted. The whole sum of $20,000 is to go to the winner of the mill.

Jeffries will leave for a short European trip in a few days. At Carlsbad he will do a little preliminary training. He plans to be ready to fight within five months.

Jeffries said he hoped the fight would be held in this country. He thought that a few days at Carlsbad and a little trip on the Continent would be beneficial.

Jeffries issued the following statement: "After decisively convincing myself that it is easily possible for me to defend my title as champion of the world, in as good a condition as ever before in my life, I am today posting my forfeit to meet the claimant of the title, Jack Johnson. My theatrical contract having expired, I am posting my money, sincerely hoping that Johnson is as anxious for the match as he has made it appear, and that he will be as ready to live up to his public statements as I am."

Jackson, Mich., July 28.—"I'll leave Chicago Monday night for New York and cover that forfeit," said Jack Johnson, the colored champion pugilist of the world, this evening when shown a dispatch to the effect that Jeffries had posted a forfeit in New York of $5,000 to fight Johnson and again place the honor of championship among the white race.

"I expected he would do something of the kind," said Johnson, "as a sort of bluff and to make good his statement that he would fight me. I will be ready to fight almost any time. I think I am in condition now to clean up Jeffries within 15 rounds."

Johnson said he preferred to meet Jeffries in San Francisco.

## SENATOR ASSAULTED NEGRO.

**Was Acquitted in Baltimore Police Court Yesterday.**

(By Wire to The Morning Star.)

Baltimore, July 28.—Senator William J. Stone, of Missouri, appeared in the Central District police court here this afternoon to answer to the charge of assaulting Lawrence G. Brown, a negro waiter on a Pennsylpania railroad train on which the Senator was traveling from Philadelphia to Washington yesterday evening. Counsel for the Pennsylvania Railroad and the Pullman company stated to the justice that those companies did not desire to push the charge, and desired that it be withdrawn. Brown, the complainant, however, refused to acquiesce and the case against Senator Stone proceeded.

Justice Grannan, after hearing the evidence, which included a statement by Senator Stone, decided that the assault was justifiable and dismissed the case.

## COTTON CROP SHORTAGE

**Condition For Season of Year is Lowest Ever Known.**

(By Wire to The Morning Star.)

Memphis, Tenn., July 28.—The report made on cotton condition up to July 25th, by the National Ginners' Association, this afternoon gives the general average as 71.7.

The average by States follows: Alabama 70; Arkansas 76; Florida 85; Georgia 79; Louisiana 62; Mississippi 64; Missouri 81; North Carolina 73; South Carolina 77; Oklahoma 79; Tennessee 77; Texas 66.

The report says: "This is the lowest condition ever known at this season of the year and indicates a crop of around 11,000,000, and unless good rains fall in the next week, throughout almost the entire belt, but more especially in Texas, Southern and Western Oklahoma and Mississippi, the crop will be under that figure."
